Wyze is getting into the mesh router business

Wyze has announced a pair of mesh Wi-Fi routers — the Wyze Mesh Router and Wyze Mesh Router Pro. The Pro model is tri-band and supports the latest Wi-Fi 6E standard, while the other is a dual-band Wi-Fi router. [Read More...](#)

EV startup Arrival to refocus business on electric vans for the US market

In 2018, fledgling EV maker Arrival partnered with UPS to build a new generation of electric delivery vans, beginning with a pilot fleet of 35 vehicles, for use in both the US and Europe. The company quickly expanded its scope from there, working on plans for [Read More](#)

Tiny robotic fingers let humans interact with insects

Human fingers are clearly too big to safely play with bugs, but technology might offer a far gentler option. Scientists at Ritsumeikan University have developed soft robotic "microfingers" that let people interact with insects. The tiny digits (just 0.47in lo... [Read More...](#)

Ford thinks driver assist is a safer bet than driverless cars, but it's fooling itself

Ford said it would stop funding driverless startup Argo AI in favor of developing Level 2 and Level 3 driver-assist technology in-house. But that might actually be a riskier — and more dangerous — pursuit. [Read More...](#)
