

Project Design Phase - I

Solution Architecture

Date	19 September 2022
Team ID	PNT2022TMID15260
Project Name	News Tracker Application
Maximum Marks	4 marks

Solution Architecture:

A complicated process with numerous sub-processes, solution architecture connects business issues with technological solutions. Its objectives are to:

- Identify the best technological solution to address current business issues.
- Explain to project stakeholders the structure, traits, behaviour, and other features of the software.
- Specify the features, stages of development, and requirements for the solution.
- Offer guidelines for how the solution is created, managed, and delivered.
